

12:30 - 13:30	Lunch, ePoster viewing & trade exhibition <i>Trade Exhibition, the Gallery</i>						12:30 - 13:30
13:30-1500	Toxicology 2 <i>Chair: Therese Becker</i>	EM Hacks: Change your practice? Session 2 <i>Chair: Mark Garcia</i>	Paediatrics 2 <i>Chair: Vekram Sambasivan</i>	Resuscitation <i>Chair: Russell Kreiger</i>	End of life in ED: Identifying the best way forward. A consultation workshop <i>Chair: Sally McCarthy</i>	Emergency Care Out There: Remote and International <i>Chair: Matthew Wright</i>	13:30-1500
	Snake envenomation <i>Geoff Isbister</i>	Join a lively panel of experts discussing their top picks from recently published EM literature. Shortcut to the evidence: Best papers we've read so you don't have to (2) Focus on Everything but paed <i>Rod Bishop</i> <i>Anne-Maree Kelly</i> <i>Daniel Fatovich</i>	Sedating children – tricks to use to reduce the tears from staff or patients (30 mins) <i>Kate O'Mahony and Tom Wallis</i>	Improving local systems in cardiac arrest response <i>Paul Middleton</i>	Facilitators: <i>Magnolia Cardona-Morrell and Sally McCarthy</i> Treatments near the end of life are often not consistent with patient wishes, prolong suffering, affect staff morale, give false hope to families and contribute to unsustainable healthcare costs. While best practice principles proliferate, translation into practice varies. This consultation will inform feasibility and acceptability of evidence-based models of service that can deliver "a good death" and can be tested and evaluated in different settings. We are planning that summary outcomes of this consultation will be published as a consensus statement in a peer-reviewed manuscript, led by researchers from The Simpson Centre for Health Services Research, UNSW, and the ACEM organising team, with all workshop contributors.	Emergency Telehealth Service - WA: Onwards, Upwards, Outwards. <i>Justin Yeung</i>	
	The blood gas interpretation of Toxic Alcohol ingestions <i>Zeff Koutsogiannis</i>		Clinically important traumatic brain injuries in children's sports - a prospective PREDICT cohort study <i>Nitaa Eapen</i>	Thoracic park (chest ultrasound) <i>Pourya Pouryahya</i>		Determinant of Need for Pre-Hospital External Pelvic Immobilisation in Adult Trauma Patients <i>David McCreary</i>	Addressing Domestic Violence in the remote ED: a different paradigm <i>Julia De Boos</i>
